

HATCHERY FEEDING SYSTEMS (HFM)  
*Laboratories and Small Hatcheries*

## Aquaculture Feeding Systems SMALL HATCHERIES AND LABORATORIES

### HFM Controller

- PLC with 7" IP66 color touch screen
- Local and remote configuration over the Internet
- Main ON/OFF switch
- Real time clock
- Individual time window for each feeder (Start and stop with real-time clock)
- Individual dose number
- Individual dose duration (0.1 sec.) or grams (0.1 gr.)
- Feeder Calibration Wizard

### HFM Feeder

- High precision and control of feeding
- Simple, compact handling and easy cleaning
- Made of ABS
- 1.5 liter transparent hopper
- Micro diets from 50  $\mu\text{m}$  up to 2mm
- Ideal pore for flours, crumbs and micro capsulated feeds
- Designed for hatcheries and research centers
- Designed to avoid splashes and work in high humidity conditions
- Designed to avoid the formation of vaults and caking problems using the mixer
- 24VAC

### Optional

- AISI 316 stainless steel reversible support
- IP68 connectors
- Spreader with speed regulator
